Senior Backend Engineer | Tech Lead

Professional Summary

Senior Backend Engineer and Tech Lead with 10 years of experience designing scalable systems, building high-availability APIs and leading technical initiatives across fintech, healthtech and edtech companies.

Strong background in backend architecture, distributed systems, cloud environments and performance optimization, with the ability to deliver end-to-end features using modern frontend technologies when required.

Experienced in collaborating with cross-functional teams, mentoring developers and translating business requirements into reliable and scalable technical solutions.

Professional Experience

Systems Analyst | Backend Developer | FCamara (June 2024 – Feb 2026)

- Design, develop and maintain backend services and REST APIs for enterprise applications.
- Build scalable and secure solutions focused on performance and maintainability.
- Collaborate with cross-functional teams throughout the software development lifecycle.
- Contribute to architectural discussions and continuous improvements in production environments.

Tech Lead | Product Owner | Grupo 2MI (May 2023 – May 2024)

- Led the backend development of financial systems and digital products.
- Served as the technical reference for the team, supporting architectural decisions and code quality.
- Worked closely with stakeholders to translate business requirements into technical solutions.
- Managed product backlog, sprint planning and delivery prioritization using Agile methodologies.
- Drove continuous improvements in system performance, maintainability and development processes.

Systems Analyst | Backend Developer | SonarTrade (June 2021 – May 2023)

- Developed financial platforms and applications for the stock market.
- Designed and evolved scalable REST APIs supporting high transaction volumes.
- Identified and resolved production performance bottlenecks.
- Implemented continuous improvements and critical fixes for business-critical systems.
- Collaborated on the evolution of distributed financial platforms.

Systems Analyst | Backend Developer | Techtools Ventures (Feb 2021 – Jun 2021)

- Developed backend solutions for healthcare platforms.
- Maintained and evolved existing systems, ensuring stability and reliability.
- Participated in API development and system integrations.
- Supported continuous improvements in application performance and maintainability.

Systems Analyst | Backend Developer | Fundação CAEd (Feb 2020 – Feb 2021)

- Developed and maintained educational platforms.
- Implemented technical improvements based on user feedback and usage metrics.

- Built backend features focused on reliability and long-term maintainability.

Technical Skills

Languages & Frameworks

- Node.js
- PHP
- Python
- JavaScript
- TypeScript
- React
- Angular
- NestJS
- Laravel

Backend Engineering

- REST APIs
- Backend Architecture
- Distributed Systems
- Microservices
- System Integrations
- Performance Optimization
- Application Security

Cloud & DevOps

- AWS
- Azure
- Google Cloud Platform (GCP)
- Docker
- Git
- CI/CD

Databases

- PostgreSQL
- MySQL
- SQL Server
- Redis
- MongoDB

Leadership & Methodologies

- Technical Leadership
- Mentoring
- Agile (Scrum & Kanban)
- Cross-functional Collaboration
- Product Development
- Stakeholder Management
